

Product Use and Information

Unigran Sugar

Our Unigran Sugar has a very narrow granulation range and contains virtually no fines. This sugar has a very low color, is free from floc, and is very stable when used in alcohol oils. It was developed primarily for use in hot drink dispensing machines to assure continuous operations even though the machine and sugar were subjected to severe changes in temperature and humidity. It is made by crystallizing a purified and filtered thick juice syrup removed from sugar beets, which is then dried and screened to produce this unusually uniform granulated sugar.

Applications

Coffee and cocoa mixes dispensed from hot drink machines, powdered drink mixes/dry mixes and cereal products.

Packaging

Unigran Sugar is available in 100-pound bags.

General Requirements

This food grade product is manufactured in accordance with Current Good Manufacturing Practices and complies with the Federal Food Drug and Cosmetic Act and all other FDA regulations as well as any applicable state statutes and regulations.

Typical Analysis

Sucrose	NLT 99.8%
Sediment	NMT 3 ppm
Ash	NMT 0.015%
Moisture	NMT 0.030%
Color	White, NMT 45 RBU
Invert	NMT 0.050%
Sulfite	NMT 10 ppm as SO ₂
Speck Count (visual)	NMT 2 per 500 grams
Odor	Free of foreign odors

Granulation

U.S. Sieve #	Maximum
30	4.0 - 20.0% cumsum retained
50	10% passing

Microbiological Standards

- Product shall test negative for pathogenic microorganisms.
- May also be ordered to meet National Food Processors Association and National Soft Drink Association requirements.
